

**Another Warehouse
may be coming to your
neighborhood.**

**Prime farmland may be
destroyed.** 

The impacts to your family:

Pollution

- Air** toxic emissions from trucks
- Water** runoff from the warehouse and its parking lots
- Noise** from truck traffic
- Soil** sewage and runoff from parking area and trucks
- Light** from trucks and building

Traffic trucks, congestion, and accidents

Property Values will most likely decrease yet this kind of development will not contribute to the property tax base according to the Franklin Township plan.

A few members of the community have been working hard to stop this,

but WE NEED YOUR HELP!

What you can do before it's too late

1. Become a member of Skylands Preservation Alliance, volunteer to serve on the board and /or help with fund raising or just informing others, buy signs to display on your property to spread the word.
Bring your ideas and talents to keep the rural and agricultural nature in Franklin Township, Warren County.
2. Come to Franklin Township committee and Land Use Board meetings and voice your opinion. Check their website for dates and times:
www.franklintwpwarren.org
3. Donations are needed to hire attorneys, engineers, etc. to help fight industrial development on farmland

Go to www.skylandspreservationalliance.org for more information.
